Education

Pranveer Singh Institute Of Technology Kanpur, India
Bachelor of Technology - Computer Science | SGPA: 7.32 *June 2024 - June 2028*

Skills Summary

AI / Machine Learning: Python, Scikit-learn, XGBoost, Random Forest, Gradient Boosting, NumPy, Pandas, Matplotlib, Seaborn
GenAI / LLMs: LangChain, RAG concepts, Prompt Engineering, OpenAI API, NLP (text classification)
Deep Learning: PyTorch, TensorFlow (fundamentals), Neural Networks basics
Backend Development: FastAPI, Flask, REST API Design, API Integration, Gunicorn, JWT Auth, Pydantic
Frameworks / Languages: Python, Java, React.js, JavaScript, MySQL, SQLite
Tools: Git, GitHub, Docker, Linux, VS Code, PostgreSQL, SQLAlchemy, Alembic, Redis
Core Skills: Data Structures & Algorithms, System Design Fundamentals, Debugging & Optimization

Experience

Machine Learning & Backend Developer - Team Project: Aquaculture Health Predictor (Patent Filed) *On-site*
Application No. 20261100633 *Sept 2025 - Jan 2026*

- Trained and evaluated ML models — Random Forest, Gradient Boosting, XGBoost — achieving **91%+ prediction accuracy** on aquaculture health datasets
- Built backend prediction pipelines and integrated model outputs into a **Streamlit web application** for real-time monitoring via REST APIs
- Performed data preprocessing, feature engineering, model evaluation & cross-validation
- **Tech Stack:** Python, Pandas, NumPy, Scikit-learn, XGBoost, Streamlit, REST APIs

Projects

Production-Ready-FastAPI-Backend View Live Website

- Designed RESTful APIs with versioning (/api/v1), modular architecture, JWT authentication & secure bcrypt password hashing
- Integrated PostgreSQL with SQLAlchemy ORM; managed database migrations using Alembic; containerized with Docker
- **Tech Stack:** FastAPI, PostgreSQL, SQLAlchemy, Alembic, Docker, Gunicorn, Render, Pydantic

URL-Shortener-API View Live Website

- Built a scalable URL shortening service with click analytics, Redis caching, database optimization & efficient REST endpoints
- **Tech Stack:** FastAPI, Python, PostgreSQL, SQLAlchemy, Alembic, Redis, Pydantic, Uvicorn, Docker

Task Management API (Machine Learning + NLP)

- JWT-based authentication, NLP text classification for auto-prioritisation, CRUD via PostgreSQL + SQLAlchemy, Pydantic validation
- Pagination, filtering, clean API design; relational DB schema with proper relationships & migration support

Achievements & Certifications

- **LeetCode Rating 1451** — active problem solver in Data Structures & Algorithms
- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** — Oracle
- **Software Engineering Job Simulation** — Goldman Sachs
- **Patent Filed** — Aquaculture Health Predictor | Application No. 20261100633

Positions of Responsibility

- **Video Editing Head** — College Entrepreneurship Club, PSIT Kanpur
